Ash Trace

There are no fat, protein, fiber, vitamins, or minerals (including sodium) of dietary significance.

Certification

Kosher

Packaging

40 Pound corrugated boxes (RSC#200) with polyethylene lining.
Drum

Shipping and Storage

Store under ambient conditions in a clean, dry area not exposed to high, prolonged temperatures (>90°F). Product shall be kept in compliance with 21CFR110.93.

Specified temperature and humidity should be maintained throughout shelf life of product. Product to be kept in well ventilated areas free from odors. All transportation used to ship product is to be clean, dry and free of any conditions which could contribute to the contamination of food products and thereby cause product loss.

Shelf Life

365 days from date of manufacture. Shelf life does not change upon opening of container.

Freshness Requirement

This product shall be less than 25% of its shelf life when shipped.

Code Date

Located on the label on the side of the carton. Information contained on this code date label includes: UDC Code (date, month, year) and Lot number. The lot number is a continuous number assigned from the manufacture record log. An example would be: Lot# 15565.

Regulatory Approval

This product is manufactured in accordance to all FDA requirements promulgated in CFR 21 and meets all federal and state regulations for food products.

Standard of Identity 21 CFR 169.179
